  - Macros

Tools Currently Used

- B2Win 5.8
  - Our Verdict
    - Ease of use
    - Free up I.T. resource
    - Value for money
  - What's new in later releases?
    - Ability to archive reports
    - Load in (overnight) Baan job

Tools Currently Used

- Baan Query Tool v 2.0
  - Create dynamic queries from Baan database using Baan data dictionary
  - Fully installed on Baan server (one licence per server)
  - Easy to configure
    - No ODBC or Database drivers
    - Works directly with Bshell
  - Easy to use

Tools Currently Used

- Baan Query Tool v 2.0
  - Multi-User
    - Can define developers & run-only users
  - Permissions
    - Access to certain packages or tables
  - In use at Esterline since Feb 2009
  - Live Demo

Tools Currently Used

- Baan Query Tool v 2.0
  - Our Verdict
    - Ease of use
    - Free up I.T. resource
    - Value for money
  - What's new in later releases?
    - Organise queries
    - Run in Baan jobs

Tools Under Consideration

- Baan Mail-Merge
  - Automatically e-mail, fax, print & archive docs from Baan/ERP LN
    - E.g. P/Os, sales invoices
  - Fixed and variable attachments
    - Terms & Conditions
    - Photos/Drawings
  - Purchase Order approval

Tools Under Consideration

- Baan Mail-Merge
  - Live Demo
  - Our Verdict
    - Ease of use
    - Free up Purchasing resource
    - Value for money

Other Tools

- B-Notified
  - Work flow for updating e.g. item master
- Baan Hot Link
  - Document management within Baan
- Baan Colour
  - Define unique colour per Baan company

Summary

- Tight integration to Baan
- Easy to use
- Time saving
- Fantastic value
- Why did we wait so long?
- Any questions?
